

JobKit

Your entire job search, in one place

Private beta · invitation

Apply smart, not often.

Paste any job and get an honest apply-or-skip verdict — then tailor an ATS-ready resume, prep for the interview, and track every application. One workflow, built from your real experience.

HOW IT WORKS

1

Paste the job

Drop in any job description or link — from LinkedIn or anywhere else.

2

Get an honest read

APPLY / MAYBE / SKIP, a match score, and the real gaps — so you skip bad fits.

3

Tailor in one click

A keyword-matched, ATS-checked resume for that role — from your real experience.

EVERYTHING YOUR JOB SEARCH NEEDS

Apply or skip

An honest verdict and match score for any job, so you chase only the ones worth it.

Tailored resumes

ATS-checked, keyword-matched resumes for each role — from your real experience.

Interview prep

Round-by-round prep packs: likely questions, your real gaps, and how to position.

Pipeline tracker

Every application and its stage — submitted, screening, interviewing — at a glance.

Company hub

Notes, the original job description, and every file you've sent, organised per company.

Quick capture

Drop in messy updates and JobKit files them to the right company automatically.

✓ Honest — never invents experience

✓ ATS-aware

✓ Your data stays yours

Want early access?

JobKit is in private beta. Reply with your email and I'll add you to the first invite round — yashkul@gmail.com

JobKit · Built for job seekers who'd rather apply smart than apply often.
